Report of the Board of Directors of the Management Company

Annual report 2023

Macroeconomic overview

The economic situation in 2023 was mainly characterized by a global weakness in industrial production coupled with falling inflation and an increasingly restrictive monetary policy. Geopolitical tensions increased, particularly as a result of the ongoing war in Ukraine and escalating conflicts in the Middle East. The euro area stagnated in the second half of the year. For total 2023, we expect GDP growth at 0.5%. Inflation in the euro area has fallen significantly over the course of the year, slowing to 2.9% yoy in December, with an average inflation rate of 5.5%. Due to high inflation, the European Central Bank (ECB) has significantly tightened its monetary policy and thus contributed to a decline of overall economic demand. It gradually increased the interest rate for the main refinancing operations and the deposit facility to 4.5% and 4% respectively until mid-September but left it unchanged thereafter. The ECB Council has also decided not to reinvest the repayment amounts from the Asset Purchase Program from July 2023 on, and announced in December that it intends to also reduce the Pandemic Emergency Purchase Program (PEPP) portfolio in 2024.

The US economy showed a surprising resilience to the sharp increase in borrowing costs. Monetary policy was tightened significantly, with a key interest rate band of 5.25% to 5.5%. Nevertheless, GDP is estimated to have grown by around 2.5%. The main driver was private consumption, which largely benefited from a higher-than-expected stock of savings, accumulated during the pandemic. The labour market remained very strong although demand for workers has cooled gradually during the year. Inflation has come sizeably down from the 9.1% peak of July 2022. This has allowed the Fed to stop raising rate and to signal cuts for 2024. Inflation averaged 4.2% in 2023, after 8% in the previous year. After China had pivoted away from its strict Covid quarantine policy in end-2022, the Q1 2023 rebound proved only short-lived. Private consumption – despite high Covid excess savings – turned out to be only mildly supportive and export growth suffered. Headwinds from the real estate sector quickly gained the upper hand again. The government did not set up a larger policy package but resorted to a flurry of incremental measures. The central bank eased its monetary policy but only limitedly so. CPI inflation repeatedly flirted with deflation.

Financial markets

In 2023, market activity was initially dominated by high inflation and the effects of key interest rate hikes. The bankruptcy of Silicon Valley Bank in March temporarily raised fears about the stability of the financial sector. At the beginning of the summer, the now significant decline in inflation rates from their peaks fuelled expectations that stagflation could be overcome. During the third quarter, the expectation that both the Fed and the ECB are not planning any further interest rate hikes also prevailed. Despite uncertainties due to increased geopolitical risks, optimism in the markets increased, driven by the expectation of declining key interest rates in 2024.

Against this backdrop, the yield on 10-year German government bonds fell over the year. However, it initially rose well into the year to values close to 3%. The withdrawal of liquidity by the ECB and the halt to reinvestments of maturing government bonds purchased under the Asset Purchase Programme also had an impact on markets. However, in the wake of lower inflation rates and a recessionary economy, this yield began to decline again. At the end of the year, it stood at 2.03%, down from 2.56% a year earlier. In the euro area, the yield differential between bonds issued by southern European countries and German government bonds narrowed, with the latter benefiting from upgrades by rating agencies, among other things, and showing a much stronger economic performance than Germany.

Equity markets trended upwards throughout the year: In the final quarter, speculation about a monetary policy reversal by central banks, together with the expectation of a solid economy in the USA and a brightening in the euro area, contributed to an upward movement. The U.S. stock market gained 24.2% over the year, while the European market grew slightly less at 16%. The euro gained in value against the US dollar over the course of the year.

Outlook 2024

Macroeconomy

The economic development in 2024 is likely to be characterized by further falling inflation rates, the repercussions of the restrictive monetary policy on demand and a policy turn-around of central banks. On a positive note, the global negative inventory cycle in the manufacturing sector showed initial signs of stabilization by end of 2023, meaning that international trade could also start to slowly overcome its weakness. However, short-term economic indicators in the euro area, such as the purchasing managers' indices, are at a very low level and recent improvements have been largely driven by the service component rather than manufacturing. Accordingly, we expect a more significant recovery to probably only become noticeable later in the year. Inflation is likely to continue to recede, but the euro area core inflation rate should not yet fall below 2%. Ebbing inflation should allow the ECB to loosen its

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND

monetary policy, and we see a first cut by June 2024 and a cumulative reduction of 100 basis points by the end of the year. We expect euro area GDP growth rate at 0.6% and the inflation rate at 2.4%.

In the US, after a surprising economic resilience in 2023, we expect weakening economic output in H1 2024 due to headwinds from tight monetary policy and the ebbing of consumer savings from the Covid-19 pandemic. However, we look for stronger signs of recovery in H2 2024: The main reasons are a less restrictive monetary policy by the Fed, for which we forecast a first rate cut in May and a cumulative cut in the key rate in 2024 of 100 basis points. Other reasons include the resilient labor market, stronger consumption in the face of rising real incomes amid easing inflation, and an upward movement in the global inventory cycle.

Financial markets

In 2024, the development of the financial markets is likely to be largely determined by further declining inflation rates and a change in monetary policy towards lower key interest rates. Geopolitical uncertainties and risks as well as the outcome of various important elections, in particular in the US, will also determine market developments. Potentially associated distortions in the energy markets could come back into focus.

In this situation, volatility is likely to remain high. But the expected brightening of the global economy combined with the start of the interest rate cut cycle in the middle of the year should improve earnings expectations. Overall, we anticipate an upward trend in risky assets in 2024. In the government bond markets, we expect a moderate decline in yields in the euro area. U.S. Treasuries should outperform those in the euro area, as we consider ECB rate cut expectations to be overblown. We expect the U.S. dollar to continue to depreciate slightly against the euro.

Remuneration Policy (Unaudited)

Generali Investments Luxembourg S.A. has designed and implemented a remuneration policy which is consistent with and promotes sound and effective risk management by having a business model which by its nature does not promote excessive risk taking that is inconsistent with the risk profile of the Fund. The Management Company's remuneration policy integrates governance, pay structure and risk alignment rules that are designed to be consistent with the business strategy, objectives, values and interests of the Management Company, the Fund and the unitholders of the Fund, and includes measures to avoid conflicts of interest.

Description of the calculation of the remuneration and benefits

The amount of the fixed remuneration of the employees is determined in the respective individual contracts. The level of fixed remuneration may be, without being required thereto, oriented on the basis of market value and any other applicable standards, as for instance, a statutory minimum social wage or the indications of a collective bargaining agreement as it may be applicable from time to time.

The Management Company will, in principle, attribute to eligible employees, a variable compensation if the Management Company has made (for the concerned calendar/financial year) a gross profit, whereby the gross profit is determined at a stage before the payment of taxes and elements of the variable remuneration.

A specific personnel evaluation tool is used in order to determine the amount of variable remuneration to be attributed to each eligible employee. Performance criteria are established for each individual with goals according to performance, effectiveness and engagement perspectives.

Remuneration Committee

The Management Company has appointed a remuneration committee which reports to the Board of Directors of the Management Company.

Remuneration disclosure

During its last accounting year ended December 31, 2023, the Management Company remunerated staff members as follows:

Total fixed remuneration	6,150,887.64
Total variable remuneration*	577,539.66
Total remuneration	6,728,427.30
Number of beneficiaries	56
Aggregate amount of remuneration for senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profile of the Management Company	1,593,650.44
Aggregate amount of remuneration for other members of staff	5,134,776.86

*Paid after year end.

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND

Remuneration Policy by sub-fund

Pursuant to Article 69(3)(a) of the UCITS Directive and referring to the last available situation, the remuneration details for the various investment managers are as follows:

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND - Futuro 2024 - 1

For the management of the GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND - Futuro 2024 – 1 sub-fund, Generali Investments Partners S.p.A.'s structures are equal to 0,10 units expressed in terms of full time equivalent, whose gross overall remuneration is 0,07% of the gross total remuneration of the Company's staff. Therefore, the gross total remuneration paid during 2023 by the Company to the personnel involved in the management of the specific sub-fund is equal to EUR 11.498 (gross total amount), split respectively into the fixed component equal to EUR 8.766 and in the estimated variable component equal to EUR 2.732.

The Board of Directors of the Management Company
Luxembourg, April 19, 2024

Report of the Investment Manager

In 2023 the sub-fund Futuro 2024-I returned to accumulate positive absolute performances thanks to the pull-to-par effect of bonds and the high carry embedded into the overlay strategy (CDS positions). The Fund did not need any major rebalancing and the minor turnover implemented was aimed at adjusting some temporary liquidity needs. Most importantly, the Fund continues to generate current income to satisfy all projected coupons and leave some cushion for defensive trade or for a redemption above par at Fund maturity in December 2024. It paid a constant year on year dividend in early December.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Generali Investments Global Solutions Fund (the "Fund"), which comprise the statement of net assets and the statement of investments as at 31 December 2023 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Generali Investments Global Solutions Fund as at 31 December 2023, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Notes "2.a. Presentation of the financial statements" and "15. Subsequent events" of these financial statements, which indicate that the sub-fund Generali Investments Global Solutions Fund - Futuro 2024 – 1 will be dissolved on 30 December 2024, as planned in the prospectus. Given that this is the only sub-fund and that the Board of Directors of the Fund's Management Company does not wish to open another, the Fund will therefore also be dissolved on this same date. As a result, these financial statements have been prepared on a non-going concern basis. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund's Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund's Management Company for the financial statements

The Board of Directors of the Fund's Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund's Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund's Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund's Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund's Management Company.
- Conclude on the appropriateness of the Board of Directors of the Fund's Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements as at 31.12.2023

1. Organisation

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND (the “Fund”) was created on December 15, 2014, as a mutual investment fund (“Fonds Commun de Placement”) under the Luxembourg law for an unlimited duration. The Fund is registered in the Grand Duchy of Luxembourg as an Undertaking for Collective Investment (a “UCI”) pursuant to Part I of the modified law of December 17, 2010.

Generali Investments Luxembourg S.A., (RCS Luxembourg B 188432), a limited liability company, “société anonyme”, having its registered office at 4, rue Jean Monnet, L - 2180 Luxembourg, has been designated to serve as management company of the Fund in accordance with the provisions of the UCI Law.

The Management Company has been designated as management company under the UCITS Directive of: APERTURE INVESTORS SICAV, GENERALI AKTIVMIX, GENERALI FONDSSTRATEGIE AKTIEN GLOBAL, GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND, GENERALI INVESTMENTS SICAV, GENERALI KOMFORT, PREMIUM FUNDS SICAV, GENERALI SMART FUNDS, GP & G FUND, LUMYNA FUNDS, LUMYNA-MARSHALL WACE UCITS SICAV AND PLENISFER INVESTMENTS SICAV; as well as management company under the AIFM Directive of: ATHORA BELGIUM FCP – SIF, ATHORA BELGIUM REAL ESTATE FCP – SIF, DIV TAUX, FENICE 190 – GENERALI EUROPEAN PROGRAM FOR SUSTAINABLE ECONOMY, GENERALI CORE HIGH STREET RETAIL FUND, GENERALI CORE+ FUND, GENERALI DIRECT PRIVATE DEBT FUND, GENERALI DIVERSIFICATION FCP – SIF, GENERALI EUROPE INCOME HOLDING S.A., GENERALI EUROPEAN CAPITAL STRUCTURE CREDIT FUND, GENERALI EXKLUSIV FONDS S.A. SICAV-RAIF, GENERALI K-EUROPE INVESTMENT RAIF, GENERALI MULTI ALTERNATIVE ASSETS, GENERALI MULTI MANAGER SOLUTIONS UMBRELLA, GENERALI PRIVATE CREDIT SCSP, GENERALI PRIVATE EQUITY RAIF, GENERALI REAL ESTATE ASSET REPOSITIONING S.A., GENERALI REAL ESTATE DEBT INVESTMENT FUND, GENERALI REAL ESTATE DEBT INVESTMENT FUND II, GENERALI REAL ESTATE LIVING FUND, GENERALI REAL ESTATE LOGISTICS FUND S.C.S., GENERALI REAL ESTATE MULTI MANAGER ASIA FUND, GENERALI SHOPPING CENTRE FUND S.C.S. SICAV-SIF, GENERALI SPECIAL SITUATIONS FUND S.C.SP, GIP PRIVATE DEBT FUND-OF-FUNDS III FCP-RAIF, GIP PRIVATE DEBT FUND-OF-FUNDS LUX FCP-RAIF, LUMYNA SPECIALIST FUNDS, RETAIL ONE FUND and SOSTENEO ENERGY TRANSITION FUND.

As at December 31, 2023, one sub-fund was active:

Sub-fund name	Currency	Maturity date
GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND - Futuro 2024 - 1 (“Futuro 2024 - 1”)	EUR	December 30, 2024

2. Summary of significant accounting policies

a) Presentation of the financial statements

The Fund maintains the books and records in Euro (“EUR”). Since the Fund has only one active sub-fund as at December 31, 2023, and the reference currency of the only sub-fund is EUR, the figures of the Fund correspond to the figures of the only active sub-fund.

The Fund's financial statements have been prepared in accordance with Luxembourg regulations relating to undertakings for collective investment.

The financial statements have been prepared on a non-going concern basis, subject to the liquidation of the Fund at December 30, 2024. The management has estimated the costs linked to the liquidation of the Fund at EUR 84,000.00. Considering the non-material nature of these amounts, the net asset value of the Fund has not been adjusted for the liquidation costs, as well as for the final amortization of placement fees.

b) Securities portfolio

The value of financial assets listed on an official stock exchange or dealt in on another regulated market is determined according to their last available price, or in the event that there should be several such markets, on the basis of the latest available price on the main market for the relevant asset.

In the event that the assets are neither listed on a stock exchange nor dealt in on another regulated market or if the price as determined above is not representative of the fair market value in the opinion of the Board of Directors of the Management Company, the value of such assets shall be assessed on the basis of their foreseeable sales prices estimated prudently and in good faith by the Board of Directors of the Management Company.

All investments with a known short term maturity date are valued by using the amortised cost method. This involves valuing an investment at its cost and thereafter assuming a constant amortisation to maturity of any discount or premium, regardless of the

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND

impact of fluctuating interest rates on the market value of the investments. If the Board of Directors of the Management Company believes that a deviation from the amortised cost per share may result in material dilution or other unfair results to unitholders, the Board of Directors of the Management Company shall take such corrective action, if any, as they deem appropriate to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.

Units or shares issued by open-ended investment funds are valued at their last available net asset value per share/unit or in accordance with the below paragraph where such securities are listed.

Units of shares in exchange traded funds which are listed or quoted on a recognised securities exchange are determined according to their last available price.

c) Cash and cash equivalents

The value of any cash on hand and broker accounts are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is derived after making such discount as may be considered appropriate in such case to reflect the true value.

d) Dividend and interest income

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognised on an accrual basis, net of withholding taxes.

e) Allocation of costs and expenses

Specific costs and expenses are charged to each sub-fund. Non-specific costs and expenses are usually distributed between the sub-funds in proportion to their respective net assets.

f) Transaction costs

The transaction costs, i.e. fees charged by the brokers and the Depositary for securities transactions and similar transactions are recorded separately in the Statement of Operations and Changes in Net Assets in the account "Transaction costs".

g) Credit default swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payment unless a credit event, relating to a predetermined reference asset or basket of assets, occurs.

If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The credit default swaps are revalued at each net asset value calculation. The unrealised appreciation or depreciation on credit default swaps is disclosed in the Statement of Net Assets.

h) Securities lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognised clearing houses, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them.

i) Option contracts

Option contracts are valued at their last known price on the valuation date or on the closing date. Options purchased at market value are disclosed in the statements of Net Assets.

3. Determination of net asset value of units

The net asset value as presented in the annual report was calculated based on the last market price available at the time the calculation was performed.

The financial statements were prepared on the basis of the latest Net asset value calculated during the year ended December 31, 2023. This NAV has been calculated for the sole purposes of the financial statements.

The net asset value per unit of each class of units in the sub-fund is determined by dividing the value of the total net assets of the sub-fund properly allocable to such class by the total number of units of such class outstanding on such valuation day.

4. Taxation

The Fund is registered in Luxembourg and as a result, is exempt from tax except for the “taxe d’abonnement”. Under current legislation, class of units reserved to retail investors (class RA2) is subject to a tax rate of 0.05% per annum and those reserved to institutional investors (classes ID, ID2, ID3 and IA3) are subject to an annual tax rate of 0.01%. The tax is calculated and payable quarterly on the net assets of the sub-fund at the end of the relevant quarter. The value of assets represented by investments in other Luxembourg UCIs/UCITS which have already been subject to the “taxe d’abonnement” is exempt.

5. Management fees

The Fund pays to the Management Company for the sub-fund and by class of units an aggregate fee (the “Aggregate Fee”) accrued on each valuation day as a percentage of the net assets and payable quarterly in arrears. The Aggregate Fee may be used to pay the Management Company for the portfolio management, the Investment Manager, any Distributors and/or any permanent representatives in places of registration of the Fund.

The Management Company is entitled to receive an administrative fee for all its administrative activities at an annual rate up to 0.08% of the net assets accrued on each valuation day and payable quarterly in arrears.

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND	Aggregate Fee (Maximum annual rate)				
	Class RA2 units	Class ID units	Class ID2 units	Class ID3 units	Class IA3 units
Futuro 2024 - 1	1.10%	0.45%	0.50%	1.05%	1.05%

6. Depositary and administrative fees

The Depositary and the Administrative Agent are paid by the Fund on the basis of business practice in Luxembourg. These fees are calculated on the basis of the daily net assets of the sub-fund and are payable quarterly in arrears at an annual rate of maximum 0.03%.

7. Placement fees

The Placement Fee is calculated on the sub-fund’s first Valuation Day and serves as a compensation for the initial distribution activity. The Placement Fee is paid once at the initial Valuation Day and is amortized over the life of the sub-fund until the Maturity Date.

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND	Placement fees
Futuro 2024 - 1	Up to 2.00% for classes RD2 and RA2

The opening balance of placement fees is EUR 4,842.93. The amortization for the period is EUR 4,301.78 and the closing balance is EUR 541.15.

8. Anti-dilution fee

The Anti-dilution Fee is charged to protect the sub-fund’s assets from dilution effects, taking into account the principle of equal treatment of unitholders.

An Anti-dilution Fee of the gross redemption amount may be charged to Investors redeeming units before the sub-fund’s Maturity Date.

The percentage of anti-dilution fees is reduced each year.

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND

As the Placement Fee is amortised over five years, the maximum Anti-dilution Fee charged to protect the sub-fund's assets from dilution effects caused by this factor is declining in five steps over time.

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND	Anti-dilution fee	Amount in EUR
Futuro 2024 - 1	Up to 2.00% for classes RD2 and RA2	1,754.73

The Anti-dilution Fee is disclosed in the Statement of Operations and Changes in Net Assets within the account "Other financial income".

9. Transaction costs

As at 31 December 2023, there were no transaction costs attributable to the Fund for the year.

10. Swap contracts

10.1. Credit default swaps

As at December 31, 2023, the sub-fund GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND - Futuro 2024 - 1 was engaged in the following credit default swap contracts with JP MORGAN SECURITIES LTD and GOLDMAN SACHS BANK (EUROPE) PLC.

Notional	Buy-Sell	Credit default cover	Currency	Maturity date	Unrealised appreciation/(depreciation) in EUR

					1,257,960.74

11. Dividend distribution

On December 4, 2023, the Board of Directors of the Management Company has decided to pay dividends with an ex-dividend date on December 15, 2023 and a payment date on December 20, 2023. The amounts were as follows:

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND	Unit classes	Currency	Dividend per unit
Futuro 2024 - 1	ID	EUR	2.00
Futuro 2024 - 1	ID2	EUR	2.50
Futuro 2024 - 1	ID3	EUR	2.00

12. Collateral

As at December 31, 2023, the collateral received and paid by the Fund in order to reduce the exposure on derivatives is detailed as below:

GENERALI INVESTMENTS GLOBAL SOLUTIONS FUND	Sub-fund currency	Counterparty	Type of collateral	Collateral amount received (in sub-fund currency)*	Collateral amount paid (in sub-fund currency)
Futuro 2024 - 1	EUR	JP MORGAN AG	Cash	970,000.00	-
Futuro 2024 - 1	EUR	GOLDMAN SACHS	Cash	290,000.00	-

*Collaterals received are off balance sheet

13. Changes in portfolio composition

The details of the changes in portfolio composition for the year ended December 31, 2023, are at the disposal of the unitholders at the registered office of the Management Company and are available upon request free of charge.

14. Sustainable Finance Disclosure Regulation (“SFDR”)

The Fund is subject to the Article 6 of SFDR.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

15. Subsequent events

The board members confirm that the sub-fund Generali Investments Global Solutions Fund - Futuro 2024 – 1, will be dissolved on December 30, 2024, as planned in the prospectus. Given that this is the only sub-fund and that the board does not wish to open another, the structure Generali Investments Global Solutions Fund will therefore also be dissolved on this same date.

Other Information (unaudited)

1. Global exposure calculation method

The global exposure of the sub-fund is calculated in accordance with the provisions of the CSSF Circular 11/512.

The Fund uses the commitment approach to monitor and measure the global exposure.
